

Prefixes, Roots and Suffixes

So called (supposedly) difficult words in English are only mind-boggling if you do not understand the structure of English. English is really several languages in one. There is that area of the language which everyone, educated or not, is able to grasp. That is the Germanic part. It is the oldest part of the language. It is also the part which forms of the core of English. Most of the most basic and most frequently used words in English are Germanic in origin.

All of the closed class words* (function or grammatical words) come from the Germanic area of English. The overwhelming majority of the most common and frequently used words in English are Germanic, rather than Latin, base. These words are rarely a problem to native English speaker. For the speaker of Latin-based (French, Italian, Spanish and Portuguese) this area of the language can be hell.

The words that English speakers have problems with are those words which are Latin and Greek based. These are the words which are neither known nor spoken by everyone who speaks English. They are taught in school. Students are forced to memorize them in primary, secondary and high school. The standardized tests which students are obligated to take to graduate, are full of words from this area of the language. The SAT, ACT, GRE do not ask questions on the Germanic-based vocabulary of English. They test one's knowledge of those words known which are known only by the educated part of the English-speaking population. These words, known as collegiate, are what one is expected to write and express oneself to demonstrate one's educational level. If one has not had the benefit of an education or a good education, this area of English is as strange and alien as any foreign language.

One can learn these words by memorizing them. This site will **NOT** help you to do that. **What we WILL do is help you understand how many of collegiate words are formed. This way, even though you do not understand a word, you will be able to figure out what its meaning. This is done by studying some of the most important prefixes, roots and suffixes in English. This site was developed to help you to have the meaning of some of the most important prefixes and roots in English.** Although the majority of prefixes and roots are from Greek and Latin origin, also included here will be those prefixes which are from Anglo-Saxon origin.

auto- (self, same, spontaneous)

auto = self

autobiography (biography)

cor, cord, cour (Latin: heart)

cardio, cardi, card (Gr: heart)

corp, corpor, corpus, (Latin: body)

ornithophobe

ornitho-

a combining form meaning 'bird' in the part specified by the latter element

ornithophobe

a person who has an unnatural, obsessive or irrational fear of birds

arachnophobia

arachne-

a combining form meaning 'spider' in the part specified by the latter element

arachnophobia

unnatural or obsessive fear of spiders

arachnophobe

arachne-

a combining form meaning 'spider' in the part specified by the latter element

arachnophobe

a person who has an unnatural or obsessive fear of spiders

(stopped here for march)

mysophobia

myso-

a combining form meaning 'dirt, filth' in the part specified by the latter element

mysophobia

an unnatural, irrational or obsessive fear of dirt or filth

necrophobia

necro-

a combining form meaning 'the dead, corpse, dead tissue' in the part specified by the latter element

necrophobia

abnormal fear of death or of a dead body

necrophobe

necro-

a combining form meaning 'the dead, corpse, dead tissue' in the part specified by the latter element

necrophobe

a person who has an abnormal fear of death or of a dead body

thanatophobia

thanato-

a combining form meaning 'death' in the part specified by the latter element

thanatophobia

(Psychiatry) abnormal or irrational fear of death

thanatophobe

thanato-

a combining form meaning 'death' in the part specified by the latter element

thanatophobe

(Psychiatry) a person who has an abnormal or irrational fear of death

adipophobia

adipo- a combining form meaning 'fat, fatty tissue' of the part specified by the latter element

adipophobia

an abnormal, irrational or obsessive fear of fat or of being fat

hydrophobia

hydro

a combining form meaning 'water' in the part specified by the latter element

hydrophobia

1. an unnatural or obsessive fear of water
2. rabies (an infectious virus characterized by the inability to swallow liquid)
3. (Chemistry) having little or no affinity for water

astraphobia

astra

a combining form meaning 'lightning' in the part specified by the latter element

astraphobia

an obsessive or abnormal fear of thunder and lightning

pyrophobia

pyro

a combining form meaning 'fire' in the part specified by the latter element

pyrophobia

an unnatural or obsessive fear of fire

pyrophobe

pyro

a combining form meaning 'fire' in the part specified by the latter element

pyrophobe

a person who has an unnatural or obsessive fear of fire

triskaideka

(Greek for the number thirteen)

triskaidekaphobia

a fear or irrational fear for the number thirteen

homo

a combining form meaning 'same' of the part specified by the latter element

homophobia

a person who has an abnormal or irrational fear of homosexuals and homosexuality

aero-

1. a combining form meaning 'air, of the air' in the part specified by the latter element
2. a combining form meaning 'aircraft, connected with flying' in the part specified by the latter element
3. a combining form meaning 'gas, of gases' in the part specified by the latter element

aerophobia an abnormal fear of drafts of air, gases or airborne matter

chromophobe

chromo

1. a combining form meaning 'color' in the part specified by the latter element
2. a combining form that denotes its colored form

chromophobe

1. (histology) not staining readily
2. (Cell Biology) a cell not easily stained in the pituitary gland

gynecophobe

gyny-, gyneco- a combining form meaning 'woman, female' of the part specified by the latter element

gynecophobe an abnormal fear of women

logophobia

log, logo- a combining form meaning 'word, speech' of the part specified by the latter element

logophobia

an obsessive, irrational or abnormal fear of words

zoophobia

zoo- a combining form meaning 'animal' of the part specified by the latter element

zoophobia an abnormal, irrational or obsessive fear of animals

algophobia

algo- a combining form meaning 'pain' of the part specified by the latter element

an abnormal or obsessive fear of pain

bibliophobia

biblio- a combining form meaning 'book' in the part specified by the latter element

bibliophobia fear or abnormal hatred of books

bibliophobe

biblio- a combining form meaning 'book' in the part specified by the latter element

bibliophobia a person who has a fear or abnormal hatred of books

barophobia

baro-
a combining form meaning 'depth' in the part specified by the latter element

barophobia
irrational, unnatural or obsessive fear of gravity

capnophobia

capno- a combining form meaning 'smoke, vapor' in the part specified by the latter element

capnophobia

1. irrational, unnatural, intense fear or hatred of smoking
2. irrational, obsessive or intense fear or hatred of persons who are smoking tobacco smoke
3. irrational, obsessive or intense fear or hatred of smoke exhausts

mythophobia

mytho- a combining form meaning 'story, legend, word, talk, speech' in the part specified by the initial element

mythophobia
to not believe or accept as credible everything one is being told

+++++

April S.A.T. words and suffixes

logy

-logy

1. a combining form used in the names of sciences, bodies of knowledge, science, doctrine, theory of the initial element
2. a termination of nouns referring to writing or collections of the part specified by the initial element
3. a termination of nouns referring to discourses or 'specified kind of speaking' of the part specified by the initial element

-ist a suffix of nouns that denotes a person who practices or concerned with certain principles or doctrines

palae-, palaeo-,pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

paleontology

the science of the forms of life existing in former geologic periods as represented by their fossils

paleo anthropo

palae-, palaeo-,pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

anthrop-, anthropo- a combining form meaning 'human' of the part specified by the latter element

paleoanthropology

the study of the origins and predecessors of the present human species using fossils and other remains

paleo anthropo

palae-, palaeo-,pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

anthrop-, anthropo- a combining form meaning 'human' of the part specified by the latter element

-ist a suffix of nouns that denote a person who practices or concerned with certain principles or doctrines

paleoanthropologist the person who studies of the origins and predecessors of the present human species using fossils and other remains

paleobiology

palae-, palaeo-, pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

bio- a combining form meaning 'life, of living things' of the part specified by the latter element

paleobiology branch of paleontology dealing with fossil life forms especially with reference to their origin, structure of evolution

geology

geo- a combining form meaning 'earth' of the part specified by the latter element

geology the science that deals with the dynamics and physical history of the earth, the rocks which it is composed and the physical, chemical and biological changes that the earth has undergone and is undergoing

geologist

geo- a combining form meaning 'earth' of the part specified by the latter element

geologist the persons who studies the dynamics and physical history of the earth, the rocks which it is composed and the physical, chemical and biological changes that the earth has undergone and is undergoing

theo- a combining form meaning 'god' of the part specified by the latter element

theology

the study of God and his relationship with the universe, study of the religious doctrines and matters of divine

chronology

chrono- a combining form meaning 'time' of the part specified by the latter element

chronology

1. the science of arranging time in in periods and ascertaining the dates and historical order of past events
2. the reference work organized according to the dates of events

3. the sequential order in which past events occur

geochronology

geo- a combining form meaning 'earth' of the part specified by the latter element

chrono- a combining form meaning 'time' of the part specified by the latter element

geochronology

the chronology of the earth, as based on both absolute and relative methods of age determination

hydrology

hydro- a combining form meaning 'water' of the part specified by the latter element

hydrology

the science dealing with the occurrence, circulation, distribution and properties of the water of the earth and its atmosphere

hydrogeology

hydro- a combining form meaning 'water' of the part specified by the latter element

geo- a combining form meaning 'earth' of the part specified by the latter element

hydrogeology

the science dealing with the occurrence, circulation, distribution and properties of the water of the earth and its atmosphere

geohydrology

hydro- a combining form meaning 'water' of the part specified by the latter element

geo- a combining form meaning 'earth' of the part specified by the latter element

geohydrology

the science dealing with the occurrence, circulation, distribution and properties of the water of the earth and its atmosphere

chronobiology

chrono- a combining form meaning 'time' of the part specified by the latter element

bio- a combining form meaning 'life, of living things' of the part specified by the latter element

chronobiology the science or study of the affect of time, especially rhythms, on living systems

biology

bio- a combining form meaning 'life, of living things' of the part specified by the latter element

biology the science or study of life or living matter in all its forms, especially with reference to origin, growth, reproduction, structure and behavior

limnology

limne- a combining form meaning 'pool, lake, marsh' of the part specified by the latter element

limnology the scientific study of the biological, chemical, geographical and physical features of fresh waters, especially lakes and ponds

paleolimnology

palae-, palaeo-, pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

limne- a combining form meaning 'pool, lake, marsh' of the part specified by the latter element

paleolimnology

the study of ancient lakes from their sediments and fossils

climatology

climate- prevailing weather condition of a place, as determined by the temperature and meteorological changes over a period of years

climatology

the science dealing with climates and climatic phenomena

paleoclimatology

palae-, palaeo-, pale-, paleo- a combining form meaning 'old, ancient' of the part specified by the latter element

climate- prevailing weather condition of a place, as determined by the temperature and meteorological changes over a period of years

paleoclimatology

the branch of paleogeography dealing with the study of paleoclimates

microbiology

micro-

1. a combining form meaning 'small' of the part specified by the latter element
2. a combining form meaning 'very small in comparison with others of its kind' of the part specified by the latter element
3. a combining form meaning 'dealing with minute organisms, organic structures or quantities of a substance' of the part specified by the latter element
4. a combining form meaning 'localized, restricted in scope or area' of the part specified by the latter element
5. a combining form meaning 'focusing on a restricted area' of the part specified by the latter element
6. a combining form meaning 'containing or dealing with texts that require enlargement to be read' of the part specified by the latter element

bio- a combining form meaning 'life, of living things' of the part specified by the latter element

microbiology

the branch of biology dealing with the structure function, uses and modes of existence of microscopic organism.

pathology

path-, patho- a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

pathology

that branch of medicine which deals with the nature of disease, their causes and symptoms and especially the structural and functional changes caused by disease

onomatology

onomat- a combining form meaning 'name, expression' of the part specified by the initial element

onomatology

the study of names or of the history of the names of persons

ontology

onto- a combining form meaning 'being, existence' of the part specified by the latter element

ontology

the branch of metaphysics dealing with or studying the nature of being or reality

oncology

onco- a combining form meaning 'tumor, mass' of the part specified by the latter element

oncology

1. the branch of medical science dealing with tumors, including the origin, development, diagnosis and treatment of malignant tumors
2. the study of cancer (malignant tumors)

oneirology

oneiro- a combining form meaning 'dream' of the part specified by the latter element

oneirology

the study of dreams

ophthalmology

ophthalm-, **ophthalmo-** combining form meaning 'eye' of the part specified by the latter element

ophthalmology

the branch of medical science dealing with the structure, functions and diseases of the eye

physiology

physi-, physio- a combining form meaning 'nature, natural, physical' of the part specified by the latter element

physiology

1. the branch of biology dealing with the functions and vital processes of living organisms or their parts and organs
2. the collective function and process of an organism

pedology

paedo, pedo- a combining form meaning 'child' of the part specified by the latter element

pedology

the systematic study of the behavior and development of children

pedology

ped, pedo- a combining form meaning 'soil, ground, earth' of the part specified by the latter element

pedology

the study of soils

(start for May)

petrology

petr-, petri-, petro-

1. a combining form meaning 'rock, stone' of the part specified by the latter element
2. a combining form meaning 'petroleum' of the part specified by the latter element

petrology

the scientific study of rocks

nomology

nomo- a combining form meaning 'custom, law' of the part specified by the latter element

nomology the science of law and law-making

neurology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

neurology

1. the science of the nerves and the nervous system
2. the science of the diseases affecting the nerves and the nervous system

neurobiology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

bio- a combining form meaning 'life, of living things' of the part specified by the prior and latter element

neurobiology the branch of biology that is concerned with the anatomy and physiology of the nervous system

embryology

embryo- a combining form meaning 'of an embryo, fetus' of the part specified by the former and latter element

embryology- a branch of biology dealing with the formation and development of embryos

embryologist

embryo- a combining form meaning 'of an embryo, fetus' of the part specified by the former and latter element

embryologist- a doctor in the branch of biology dealing with the formation and development of embryos

neuroembryology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

embryo- a combining form meaning 'of an embryo, fetus' of the part specified by the former and latter element

neuroembryology the branch of embryology dealing with the origin and development of the nervous system

immunology

immuno- a combining form meaning 'immune, immunity' of the part specified by the latter element

immunology the branch of medicine dealing with immunity to disease

immunologist

immuno- a combining form meaning 'immune, immunity' of the part specified by the latter element

immunologist the doctor who is in the branch of medicine dealing with immunity to disease

neuroimmunology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

immuno- a combining form meaning 'immune, immunity' of the part specified by the latter element

neuroimmunology the branch of immunology concerned with the interactions between immunological and nervous system function

pharmacology

pharmaco a combining form meaning 'drug' of the part specified by the latter element

pharmacology the science of drugs, the art of preparing medicines

pharmacologist

pharmaco a combining form meaning 'drug' of the part specified by the latter element

pharmacologist one who is skilled in the science of drugs, the art of preparing medicines

neuropharmacology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

pharmaco a combining form meaning 'drug' of the part specified by the latter element

neuropharmacology the branch of pharmacology concerned with the effects of drugs on the nervous system

neurophysiology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

physi-, physio- a combining form meaning 'nature, natural, physical' of the part specified by the latter element

neurophysiology the branch of physiology dealing with the function of the nervous system

toxicology

toxic-, toxico- a combining form meaning 'poison' of the part specified by the latter element

toxicology the scientific study of poisons, their effects, their detection, and the treatment of the conditions produced by them

toxicologist

toxic-, toxico- a combining form meaning 'poison' of the part specified by the latter element

toxicologist one who specializes in the scientific study of poisons, their effects, their detection, and the treatment of the conditions produced by them

neurotoxicology

neuro- a combining form meaning 'nerve, nerves, nervous system' of the part specified by the latter element

toxic-, toxico- a combining form meaning 'poison' of the part specified by the latter element

neurotoxicology the branch of science that deals with the effects of poisons on the nervous system

ethnology

ethno- a combining form meaning 'race, culture, people' of the part specified by the latter element

ethnology

the branch of anthropology that analyzes cultures especially in regard to their historical development and the similarities and dissimilarities between them

ethnologist

ethno- a combining form meaning 'race, culture, people' of the part specified by the latter element

ethnologist

a specialist in the branch of anthropology that analyzes cultures especially in regard to their historical development and the similarities and dissimilarities between them

archaeology

archaeo- , **archeo-** a combining form meaning 'ancient, original' of the part specified by the latter element

archaeology

the scientific study of the life and culture of ancient peoples through the excavation of ancient cities, relics, artifacts

archaeologist

archaeo- , **archeo-** a combining form meaning 'ancient, original' of the part specified by the latter element

archaeologist

a specialist in the scientific study of the life and culture of ancient peoples through the excavation of ancient cities, relics, artifacts

ethnoarchaeology

ethno- a combining form meaning 'race, culture, people' of the part specified by the latter element

archaeo- , **archo-** a combining form meaning 'ancient, original' of the part specified by the latter element

ethnoarchaeology

the branch of archaeology that studies contemporary primitive cultures and technologies as a way of providing analogies and thereby patterns for prehistoric cultures

anthropology

anthropo-

a combining form meaning 'human, human being' in the part specified by the latter element

anthropology

the study of the races, physical and mental characteristics, distributions, customs, social relations of mankind

zoology

zoo- a combining form meaning 'living being' in the part specified by the latter element

zoology

the branch of biology dealing with animals

herpetology

herpeto- a combining form meaning 'a creeping thing' in the part specified by the latter element

herpetology

the branch of zoology dealing with reptiles and amphibians

ophiology

ophio- a combining form meaning 'snake' in the part specified by the latter element

ophiology

the branch of herpetology dealing with snakes

ornithology

orinith-, **orintho-** a combining form meaning 'bird' in the part specified by the latter element

ornithology

the branch of zoology that deals with birds

necrology

necr-, **necro-** a combining form meaning 'the dead' of the part specified by the latter element

necrology

1. obituary
2. register of people who have died in a certain time or place

herniology

hernio- a combining form meaning 'a rupture, hernial' in the part specified by the latter element

herniology

a branch of surgery with deals with ruptures

histology

histo- a combining form meaning 'tissue' in the part specified by the latter element

histology

the branch of biology dealing with the microscopic study of the structure of tissues

aerology

aero-

1. a combining form meaning 'air, of the air' in the part specified by the latter element
2. a combining form meaning 'aircraft, connected with flying' in the part specified by the latter element
3. a combining form meaning 'gas, of gases' in the part specified by the latter element

aerology that branch of meteorology involving the observation of the atmosphere by means of balloons, airplanes

thanatology

thanato- a combining form meaning 'death' in the part specified by the latter element

thanatology

1. the study of death and its surrounding circumstances, as in forensic science
2. (Psychiatry) the study of the effects of death and dying to lessen the suffering and address the needs of the terminally ill and their survivors

thaumatology

thaumato- a combining form meaning 'miracles' in the part specified by the latter element

thaumatology the study of miracles

teleology

tele-

1. a combining form meaning 'distant, transmission over a distant'
2. a combining form meaning 'end, complete'

teleology

1. (Philosophy) the doctrine that final causes exist
2. the study of the evidences of design or purpose in nature

metrology

metro-

1. a combining form meaning 'measures' of the part specified by the latter element
2. a combining form meaning 'uterus' of the part specified by the latter element
3. a combining form meaning 'metropolis' of the part specified by the latter element

metrology the science of weights and measures

craniology

cranio- a combining form meaning cranium (skull of a vertebrate/ part of the skull that encloses the brain)

craniology the science that deals with the size, shape and other characteristics of human skulls

cryology

cryo- a combining form meaning 'icy cold' in the part specified by the latter element

cryology the study of snow and ice

gynecology

gyneco- a combining form meaning 'woman, female' of the part specified by the latter element

gynecology the branch of medical science that deals with the health maintenance and diseases of women, especially their reproductive organs

gynecologist

gyneco- a combining form meaning 'woman, female' of the part specified by the latter element

gynecologist one who specializes in the branch of medical science that deals with the health maintenance and diseases of women, especially their reproductive organs

plutology

(ploutos) plu a combining form meaning 'wealth' of the part specified by the latter element

plutology

the science of wealth

glottochronology

gloss-, **glosso-**, **glotto-** a combining form meaning 'tongue' of the part specified by the latter element

chrono- a combining form meaning 'time' of the part specified by the latter element

glottochronology (Linguistic) a method for estimating the dates when the branches of a family of languages separated from the parent language and from one another

lexicology

lexico- a combining form meaning 'word, speech' in the part specified by the latter element

lexicology the study of the function, meaning, and use of words and of idiomatic combination of words

urology

uro-

1. a combining form meaning 'urine' in the part specified by the initial element

2. a combining form meaning 'tail' in the part specified by the initial element

urology

the scientific, clinical and especially surgical aspects of the study of the urine and genitourinary tract in health and disease

venology

veno- a combining form meaning 'vein' of the part specified by the latter element

venology the study of the anatomy, physiology and diseases of the veins

phlebology

phlebo- a combining form meaning 'vein' of the part specified by the latter element

phlebology the study of the anatomy, physiology and diseases of the veins

phonology

phon-, **phono-** a combining form meaning 'sound' of the part specified by the latter element

phonology the study of the distribution and patterning of speech sounds in a language and of the tact rules governing pronunciation

phytology

phyto- a combining form meaning 'plant' of the part specified by the latter element

phytology
the scientific study of plants, botany

phytosociology

phyto- a combining form meaning 'plant' of the part specified by the latter element

socio- a combining form meaning 'social, sociological, society

phytosociology
the branch of ecology dealing with the origin , composition, structure and classification of plant communities

phytopathology

phyto- a combining form meaning 'plant' of the part specified by the latter element

path-, **patho-** a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

phytopathology the branch of biology dealing with diseases of plants

phytopathologist

phyto- a combining form meaning 'plant' of the part specified by the latter element

path-, **patho-** a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

phytopathologist one who specialized in the branch of biology dealing with diseases of plants

***** continue for june

lithology

litho- a combining form meaning 'stone' of the part specified by the latter element

lithology

1. the physical characteristic of a rock
2. (Medicine) the study of the formation, pathology and treatment of stones in the human body

semiology

sema-, **seme-**, **semi-** a combining form meaning 'signal, mark, meaning' in the part specified by the latter element

semiology

1. the science of signs or sign language
2. (Medicine) the branch of medicine having to do with symptoms

rhinology

rhino- a combining form meaning 'nose' in the part specified by the latter element

rhinology the branch of medicine which treats the nose and its diseases

theology

theo- a combining form meaning 'god' in the part specified by the latter element

theology

1. the study of God and the relations between God and the universe
2. the study of religious doctrines and matters of divinity

phenology

pheno- a combining form meaning 'shining' of the part specified by the latter element

phenology the science of natural phenomena that recur periodically, as migration and blossoming and their relation to climate and changes in season

phenologist

pheno- a combining form meaning 'shining' of the part specified by the latter element

phenologist one who is skilled in the science of natural phenomena that recur periodically, as migration, blossoming and their relation to climate and changes in season

phenomenology

phenomeno a combining form meaning 'to appear' of the part of the part specified by the latter element

phenomenology

1. the science dealing with phenomena as distinct from the science of being
2. the branch of science that classifies and describes its phenomena without any attempt at explanation

oneirology

oneiro- a combining form meaning 'dream' in the part specified by the latter element

oneirology the interpretation or study of dream

andrology

andr, andro

1. a combining form meaning 'male, man' in the part specified by the latter element
2. (Botany) a combining form meaning 'anther, stamen' in the part specified by the latter element

andrology

the study of the functions and diseases peculiar to males, especially the reproductive organs

pedology

pedo-

1. a combining form meaning 'child' of the part specified by the latter element
2. a combining form meaning 'soil' of the part specified by the latter element

pedology

the study of soils

agrology

agro- a combining form meaning 'field, earth, soil, crop production'

agrology the science of soils in relation to crop production

agrobiolology

agro- a combining form meaning 'field, earth, soil, crop production'

bi-, bio- a combining form meaning 'life' in the part specified by the latter element

agrobiolology the science of biology, plant nutrition and growth as applied to agriculture in the improvement of crops and control of the soil

hyetology

hyeto- a combining form meaning 'rain' of the part specified by the initial element

hyetology the branch of meteorology which deals with precipitation (rain, snow etc.)

(july web site)

angiology

angio- a combining form meaning 'a case, vessel, capsule relating to seed, blood or lymph vessels' of the part specified by the initial element

angiology the branch of anatomy dealing with blood vessels and lymphatics

anesthesiology

anesthesi a combining form meaning 'want or lack of feeling or sensation' of the part specified by the latter element

anesthesiology the science of administering anesthetics

anesthesiologist

anesthesi a combining form meaning 'want or lack of feeling or sensation' of the part specified by the latter element

anesthesiologist a physician who specializes in anesthesiology

actinology

actin-, actini-, actino-

1. (Zoology) a combining form meaning 'the possession of tentacles' in the part specified by the latter element
2. (Physical Science) a combining form meaning 'ray beam, radiation' in the part specified by the latter element
3. (Biology) a combining form meaning 'having ray like structures, radiates in form' in the part specified by the latter element

actinology

the science that deals with the property of radiation by which chemical effects are produced

myology

myo- a combining form meaning 'muscle' of the part specified by the initial element

myology the science or branch of anatomy dealing with muscles

myrmec- a combining form meaning 'ants' of the part specified by the latter element

myrmecology the branch of entomology dealing with ants

mythology

mytho- a combining form meaning 'myth' of the part specified by the latter element

mythology a body of myths, stories, tradition or beliefs associated to the history of an event

entomology

entomo- a combining form meaning 'insect' of the part specified by the latter element

entomology the branch of zoology dealing with insects

enterology

enter-, entero- a combining form meaning 'intestine ' of the part specified by the latter element

enterology the branch of medicine dealing with the intestines

etymology

etymon- a combining form meaning 'studying the true meanings and values of words' of the part specified by the latter element

etymology

the study of the historical linguistic changes manifested in individual words

philology

philo- a combining form meaning 'loving, liking, having a predilection for' in the part specified by the latter element

philology the study of literary texts, in order to determine their authenticity, their original form and meaning

electrobiology

electro-

1. a combining form meaning 'electric' in the part specified by the latter element
2. a combining form meaning 'electrically' in the part specified by the latter element
3. a combining form meaning 'electricity ' in the part specified by the latter element

4. a combining form meaning 'electrolysis' in the part specified by the latter element

bio- a combining form meaning 'life' in the part specified by the latter or initial element

electrobiology the branch of biology which deals with the electrical manifestations in living organisms

physiology

physi-, physio- a combining form meaning 'nature, natural, physical or physiological' of the part specified by the latter element

physiology the branch of biology dealing with the functions and the activities of living organisms and their parts, including all physical and chemical processes

physiologist

physi-, physio- a combining form meaning 'nature, natural, physical or physiological' of the part specified by the latter element

physiologist a specialist in the branch of biology dealing with the functions and the activities of living organisms and their parts, including all physical and chemical processes

electrophysiology

electro-

1. a combining form meaning 'electric' in the part specified by the latter element
2. a combining form meaning 'electrically' in the part specified by the latter element
3. a combining form meaning 'electricity' in the part specified by the latter element
4. a combining form meaning 'electrolysis' in the part specified by the latter element

physi-, physio- a combining form meaning 'nature, natural, physical or physiological' of the part specified by the latter element

electrophysiology the branch of physiology dealing with the electric phenomena associated with the body and its function

physiopathology

physi-, **physio-** a combining form meaning 'nature, natural, physical or physiological' of the part specified by the latter element

path-, **patho-** a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

physiopathology the science dealing with the disturbances of bodily function resulting from disease

phytology

phyt-, **phyto-** a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

phytology

1. the scientific study of plants
2. botany

phytologist

phyt-, **phyto-** a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

phytologist

1. a specialist in the scientific study of plants
2. botanist

phytobiology

phyt-, **phyto-** a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

bio- a combining form meaning 'life' in the part specified by the latter or initial element

phytobiology

the branch of biology dealing with plants

phytopathology

phyt-, phyto- a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

path-, patho- a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

phytopathology

the scientific study of the diseases of plants

phytopathologist

phyt-, phyto- a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

path-, patho- a combining form meaning 'suffering, disease, feeling' of the part specified by the latter element

phytopathologist

an expert or student who specializes in the scientific study of the diseases of plants

phytolithology

phyt-, phyto- a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

litho- a combining form meaning 'stone' of the part specified by the latter element

phytolithology

1. the science dealing with fossils plants
2. paleobotany

phytolithologist

phyt-, phyto- a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

litho- a combining form meaning 'stone' of the part specified by the latter element

phytolithologist

1. an expert in the science dealing with fossils plants
2. paleobotanist

phytosociology

phyt-, **phyto-** a combining form meaning 'plant, flora, vegetation' of the part specified by the latter element

ailurophile

ailuro-

a combining form meaning 'cat' in the part specified by the latter element

ailurophile

a person who has an abnormal or unnatural fear of cats

cynophile

cyno-

a combining form meaning 'dog' in the part specified by the latter element

cynophile

an unnatural or obsessive fear of dogs

cynophile

cyno-

a combining form meaning 'dog' in the part specified by the latter element

cynophile

a person who has an unnatural or obsessive fear of dogs

ophiciophile

ophi

a combining form meaning 'snake' in the part specified by the latter element

ophiciophile

an unnatural or obsessive fear of snakes

ophiciophile

ophi

a combining form meaning 'snake' in the part specified by the latter element

ophiophile

a person who has an unnatural or obsessive attraction to snakes

ornithophile

ornitho-

a combining form meaning 'bird' in the part specified by the latter element

ornithophile

an unnatural, obsessive or irrational fear of birds

ornithophobe

ornitho-

a combining form meaning 'bird' in the part specified by the latter element

ornithophile

a person who has an unnatural, obsessive or irrational fear of birds

arachnophobia

arachne-

a combining form meaning 'spider' in the part specified by the latter element

arachnophobia

unnatural or obsessive fear of spiders

arachnophile

arachne-

a combining form meaning 'spider' in the part specified by the latter element

arachnophile

a person who has an unnatural or obsessive fear of spiders

mysophile

myso-

a combining form meaning 'dirt, filth' in the part specified by the latter element

mysophilia

(pathology) an unnatural, irrational or obsessive attraction of dirt or filth

necrophile

necro-

a combining form meaning 'the dead, corpse, dead tissue' in the part specified by the latter element

necrophile

necrophile

necro-

a combining form meaning 'the dead, corpse, dead tissue' in the part specified by the latter element

necrophile

a person who has an abnormal fear of death or of a dead body

thanatophile

thanato-

a combining form meaning 'death' in the part specified by the latter element

thanatophobia

(Psychiatry) abnormal or irrational fear of death

thanatophile

thanato-

a combining form meaning 'death' in the part specified by the latter element

thanatophile

(Psychiatry)

hydrophile

hydro

a combining form meaning 'water' in the part specified by the latter element

hydrophile

1.

2.

3. (Chemistry)

astraphile

astra

a combining form meaning 'lightning' in the part specified by the latter element

astraphile

an obsessive or abnormal fear of thunder and lightning

pyrophile

pyro

a combining form meaning 'fire' in the part specified by the latter element

pyrophile

an unnatural or obsessive fear of fire

pyrophile

pyro

a combining form meaning 'fire' in the part specified by the latter element

pyrophile

a person who has an unnatural or obsessive fear of fire

triskaideka

(Greek for the number thirteen)

triskaidekaphile

a fear or irrational fear for the number thirteen

homo

a combining form meaning 'same' of the part specified by the latter element

homophile

a person who has an abnormal or irrational fear of homosexuals and homosexuality

aero-

1. a combining form meaning 'air, of the air' in the part specified by the latter element
2. a combining form meaning 'aircraft, connected with flying' in the part specified by the latter element
3. a combining form meaning 'gas, of gases' in the part specified by the latter element

aerophile an abnormal fear of drafts of air, gases or airborne matter

chromophile

chromo

1. a combining form meaning 'color' in the part specified by the latter element
2. a combining form that denotes its colored form

chromophile

1. (histology)
2. (Cell Biology)

sacrophile

sacro- a combining form meaning 'flesh' of the part specified by the latter element

sacrophile a flesh-eating animal, esp. the Tasmanian devil

gynephobia

gynaeco-, gynco-, gyne-, gyneco-, gyno-

1. a combining form meaning 'women, female' in the part specified by the latter element
2. a combining form meaning 'female reproductive organ, ovary, pistil' in the part specified by the latter element

gynephobia

an abnormal fear of women

hem-, **hema-**, **hemato-**, **hemo-**

from the Greek, **haîma** (blood) combining form meaning **blood**. The following are a few examples of the above prefix in English

hemagglutinate

to clump (red blood cells)

hemagglutination

the agglutination or clumpings of red blood cells

hemagogue

that which increases the discharge of blood

hemal

pertaining to blood or blood vessels

hemathermal

warm-blooded

hematic

1. pertaining to blood
2. causing a change in the condition of the blood

3. colored like blood

hematocrit

centrifuge for separating the cells of the blood from the plasma

hematocyst

blood filled cyst

hematogenous

1. originating in the blood
2. spread by way of the bloodstream
3. blood-producing

hematology

comprehensive study of the blood and blood-forming organs, its nature, function and diseases

hematuria

blood in the urine

hemochrome

1. red coloring matter of the blood
2. oxygen-containing component of the blood

hemocyte

blood cell

hemocytoblast

primordial cell capable of developing into any type of blood cell

hemocytometer

instrument for counting blood cells

hemodialysis

dialysis of the blood

hemodilution

dilution of solids in blood caused by an influx of fluid

hemodynamics

study of the forces involved in the circulation of blood (branch of physiology)

hemoglobin

oxygen-carrying pigment of the red blood corpuscles which gives them their red color and which serves to carry oxygen to the tissues

hemogram

graphic record of the cellular elements of the blood

hemoid

appearing like or resembling blood

hemophilia

excess bleeding due to abnormality of a clotting factor in the blood

hemophiliac

a person who suffers from hemophilia or who bleeds excessively when wounded due to an abnormality of a clotting factor in the blood

hemophobia

an abnormal fear of blood

hemoptysis

the spitting or expectoration of blood from the lungs, trachea, larynx or bronchi
